Three Percent Loans Offered By FHA For Forestry Acreage

The Farmers Home Administration makes farm ownership, operating, and soil and water loans accompanied by technical management assistance to eligible farmers for forestry purposes

Farm ownership loans may be used to help develop and conserve debts on land that is to be used for forestry purposes, to establish forestry plantings, and to pay initial costs for carrying out approved forestry practices.

Soil and water loans may be made to eligible individual tenant farmers or owner-operators, farmowners who are not personally operating their farms and part-time farmers.

The interest rate for loan funds used for forestry purposes is 3 percent per year on the unpaid principal. Funds in the loan for other than forestry purposes will bear 5 percent interest.

The maximum repayment period for farm ownership and soil and water loans is 40 years.

Applications for these loans may be made at th eFarmers Home Administration office in Farmville. The office is located in the Watson Insurance Building. Hunter P. Evans is the county supervisor. Mr. Evans also has part-time office hours at Appomattox at the ASCS office on Tuesday mornings from 9 to 9:30 a.m.

Rebels Open Against Amherst

Appomattox Rebels open their season against the Amherst Lancers Friday evening at 8 at Amherst.

The Rebels minus about 16 Seniors will try to build a team around "overall balance" instead of a few "stars," says Coach Gordon Bragg. He reports the line pretty well set with veteran Joe Megginson named as captain, plus Kenneth Baldwin, Grey Hesson, Danny Hernecall, Jo e Mayberry, Clem O'Brien, Wilfred Rogers, Edwin Stanley, and Richard Williams. There's also a group of fine football players from last year's strong Junior Varsity team, said Bragg. Jo Vees last season, with Walter H. Carson as coach, lost only one game.

Long Practice Sessions

The team, says coach Bragg, has been through three weeks of long practice sessions and all seem in good physical and mental shape. However, the Rebels will have their hands full against Amherst Lancers, one of two teams picked to win the District 4 championship this year.

"The Rebels would like nothing better than to make it 16 in a row over the Amherst High School team," said the coach. "And we are going to Amherst Friday night with all intentions of making it 16 in a row."

He said Rebel strategy this fall will include the use of a wide open type offense pattern," and we hope to pass the ball at least 50 percent of the time," he added.

"As the season goes on we should improve with each game as the Junior Varsity players fit into our plans," said the coach. "We hope for a very successful season, and with the backing of the fans we know the boys will play better."

ASC Ballots To Be Mailed September 30

A slate of nominees for membership on each of Appomattox County's three ASC Community committees is being made up at the Agricultural Stabilization and Conservation county office.

Farmers who are eligible to vote in the committee elections also have the right to nominate as candidates for committee membership any farmer who is eligible and willing to serve. Such petitions, signed by six or more eligible voters, may be filed at the county office any time before September 23, 1964.

Additional nominations may be made by the incombent ASC Community and county committee, if these are required or determined to be sufficient in number or eligible to serve.

"We want the best men available to serve on our ASC committees, "Chairman J. A. Martin declared, "because the committee system is the backbone of farm programs— those dealing with conservation of soil and water, as well as the price support activities in various commodities.

A farmer eligible to vote in the committee elections", according to the Chairman, is one who is taking part or is eligible to take part in any of the national farm programs which the ASC committee helps to administer. To hold office as a committeeman a farmer must be eligible to vote in the election.

Further information on these and other qualifications may be obtained from the ASCS county office.

The election in Appomattox County will be by mail. Ballots will be mailed to voters by September 30. Voted ballots must be returned to the county ASCS office by October 15, 1964.

For the purpose of this election community bounday lines will conform to the three magisterial district lines, Cloverhill, Southside and Stonewall.

Farmers Urged To Mail Survey

Postmaster H. W. Conner announced today that several farmer-patrons on Rural and Star Routes originating from Appomattu will receive 1964 Acreage Survey cards from their carriers on or about September 16.

Your Post Office assists the Department of Agriculture each year in making this and two other surveys covering Virginia agriculture.

Acreage cards returned by farmers to their carriers will be mailed directly to the Virginia Crop Reporting Service in Richmond. Information from each card, if properly reported, will ben be tabulated and combined with other reports to give indications of changes in acreages of crops harvested. Using these facts, estimates of acreages for the Old Dominion's principal crops will be made. Other surveys will provide the Crop Reporting Service with information on yields. From these estimates the outcome and probable size of each of the 1964 crops will be determined.

So, if next week you find in your mail box a card itled "**'64 Acreage Survey**", don't put it aside. Postmaster Conner urges that you fill out the card and return it to your carrier. This is important since only a given number of farmers will recieve these cards. And your community will be represented according to the number of cards returned.

Carriers helping with this survey are: W. E. Hancock, Route One; W. C. Hubbard, Route Two; R. W. Stanley, Route Three; S. A. Lawson, Route Four.
